

HELPING THOSE WITH BRAIN CANCER TO LIVE WELL

Macmillan Brain CARE Team

Brain Cancer Rehabilitation in Hertfordshire

Are you working with a person living with a diagnosis of a high grade brain tumour? If so, we can offer:

- regular assessment of rehabilitation needs
- information and advice about rehabilitation and services available in Hertfordshire
- discussion about preferences for rehabilitation
- information and support for friends and family
- referral on to services e.g. physiotherapy, occupational therapy, speech and language therapy, dietetics, equipment, psychological support, hospice services
- support with rehabilitation issues relating to illness or treatment side effects and with advance care planning
- liaison with therapists and doctors involved in the treatment and management programme
- a point of contact should new issues arise
- provide specialist AHP support and joint working
- provide support and education about brain tumour rehabilitation.

Who we are

We are a team of specialist Allied Health Professionals (AHPs) assessing, co-ordinating and supporting the rehabilitation needs of people living with brain cancer (brain tumours grades III and IV) throughout Hertfordshire.
