

PPE Social Story

When I see a therapist in school, they will be wearing special clothes. This is ok.

Wearing special clothes like this can help keep everyone healthy.

They will be wearing a mask.

This is to keep their nose and mouth clean and to help keep me safe.

They will be wearing an apron.

This is to keep their clothes clean.

They will be wearing gloves.

This is to keep their hands clean.

They might also be wearing a visor.

This is to keep their eyes clean.

Well done for coming to see the Children's Therapist
