

Children's and Young People's Therapies Service

SLT: 'It's nice to sit alongside him as he learns and I feel involved in the process much more than when the sessions are held at school, so although I'm sure there are some drawbacks to doing the sessions remotely, it has also been very enjoyable and informative from my perspective.'

PHYSIO: 'Thank you for all your support these past few years. You have been the light in sometimes dark times and we will never forget you.'

OT: Mother said the adaptation for her son has been life changing, she said he now has his independence and privacy when going to the toilet and he is learning how to use the shower

You said, we did. Because we listen.

YOU SAID you wanted school staff training to include specific info about your children's sensory needs

WE DID: We created a new sensory training package for school staff to be delivered this Summer

YOU SAID the provision in EHCP reports was sometimes not clear enough

WE DID: We have updated our EHCP reports to improve the specificity in the health provision

YOU SAID you sometimes have to wait too long at the SLT drop in clinics

WE DID: We now offer bookable virtual screening clinics for SLT and OT
